HIGH DEFINITION EYEGLASSES

THANK YOU FOR PURCHASING THE HIGH DEFINTION EYEGLASSES

Please read this manual before operating the high definition eyeglasses and keep it handy.
Covert gadgets don't always have to be used for spying. The high quality metal front frames and soft-touch plastic not only make these glasses sturdy, but comfortable as well. Between assignments you can use this ultra-advanced pair of glasses just to give yourself that trendy intelligent look.

When duty calls, though, these specs are ready to go to work and capture everything you see. Because this device uses MicroSD cards, you'll never need to work about running out of memory because you can replace them as needed. Transfer files to and from your computer easily with the included USB cable.

Your purchase should include:
1 x GLClear720
1 x USB Cable
1 x Black Carrying Pouch
1 x Glass Cleaning Cloth
1 x Instruction Booklet

Camera Lens

USB Port

Power Button

Indicator Light

MicroSD Card Slot

OPERATING THE HIGH DEFINTION EYEGLASSES

IMPORTANT NOTICE: Allow the device to charge 8 – 12 hours before using. Do NOT charge for more than 12 hours.

HOW TO CHARGE THE EYEGLASSES
1. Plug the USB cable into the USB port on the sunglasses
2. Plus the USB cable into the USB port on your PC
   - The blue indicator light will turn on while charging

TIP: If the red and blue indicator lights flash three times and then the eyeglasses turn off the eyeglasses need charging

HOW TO TURN ON THE EYEGLASSES
1. Push and hold the Power Button for 2 seconds
   - The blue indicator light will turn on
   - The eyeglasses are now in **standby mode**
   - If you do not use the eyeglasses for one minute, the eyeglasses will automatically shut off

TIP: If the red and blue indicator lights are flashing you need to insert a MicroSD Card into the MicroSD Card Slot

HOW TO RECORD VIDEO
1. Put the eyeglasses into **standby mode**
2. Push and hold the Power Button for 3 seconds
   - The blue indicator light with blink 3 times and then turn off
   - The eyeglasses are now recording live video
3. Push the Power Button
   - The red indicator light will blink 3 times
   - The eyeglasses have now shut down

HOW TO TAKE A PHOTOGRAPH
1. Put the eyeglasses into **standby mode**
2. Push the Power Button
   - The blue indicator light will blink once
   - The eyeglasses have taken a photograph

TIP: If there is a MicroSD Card in the MicroSD Card Slot and the red and blue indicator lights are flashing the MicroSD Card is full
